### Courses:

IT School GoIT-programming

February/2023-October/2023

Ilac-english

April/2023-for now

## SUMMARY

I am a goal-oriented and responsible person looking for a front-end developer position. I have experience with JavaScript, React, Redux, HTML/CSS, SASS/SCSS and Node.js. I am well versed in BEM methodology, cross-browser and responsive web development. I am ready to accept new challenges, improve my skills and gain new experience as a developer. I get along well with people and can talk to them about different topics. I look forward to being part of a professional team

## SELF-EDUCATION

- [CodeWars](#)
- [LeetCode](#)
- [roadmap.sh](#)
- MDN Web Development`
- Goit conspect and Lectures
- [learnJavaScript](#)

## PROJECTS

**Backend for a team project** [Preview](#) | [code](#)  
**Power Pulse.**

Technologies: Node.js, MongoDB, Swagger, Express.js

**Phone book** [Preview](#) | [code](#)

Technologies: React, redux, rtq-query, html, css.module

**Landing page: WebStudio** [Preview](#) | [code](#)

Technologies: html, css, javascript

**React app PowerPulse** [Preview](#) | [code](#)

[Worked on the products page](#)

Technologies: react, redux, html, scss
